

WHY BATTERY RECYCLING IS IMPORTANT

- Batteries are **TOXIC!**
- Batteries are a regulated hazardous waste
- Recycling protects humans & the environment
- Preserves raw materials used in new batteries
- Reduces the environmental impact of mining

AUSTRALIA'S RECYCLING PERFORMANCE (2012-13)

- Dry Cell batteries produced in Australia PA - 14,703 Tonnes
- Volume sent to **LANDFILL per year – 14,345 Tonnes**
- Volume recycled per year – 403 Tonnes (**2.7%**)

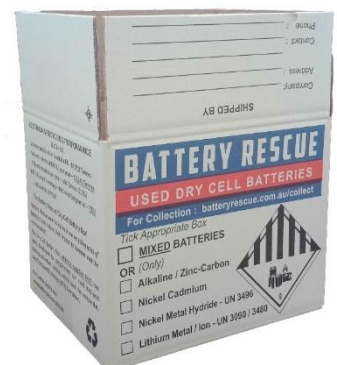

Note: Europe's average – 44% with Belgium at – **70%**!

... WE CAN DO BETTER!

The Battery Rescue 'Dry Cell Battery Box'

Battery Rescue want to make a valuable contribution to increase our recycling rates of batteries and reduce their impact on humans and the environment.

This Dry Cell Battery Box, which is supplied FREE, has been developed to complement our used lead-acid battery collection service, which uses the unique Battery Transport & Storage (BTS) Container.

Please see over page

Dry Cell Battery Recycling Service & Pricing

When the dry cell box is full you can request collection at www.batteryrescue.com.au/collect.

The collected dry cell batteries are shipped to Envirostream, (www.envirostream.com.au) for recycling in Melbourne, where batteries will be correctly recycled and not disposed of to landfill or shipped overseas for processing.

Pricing for Battery Rescue Customers

Battery Rescue will provide its custom designed dry cell box, **free of charge**, to our customer's that accumulate dry cell batteries.

If Battery Rescue currently collect your used lead acid batteries, collection and recycling of the dry cell batteries will be arranged... **at no cost**, up to an annual limit of 20kg.

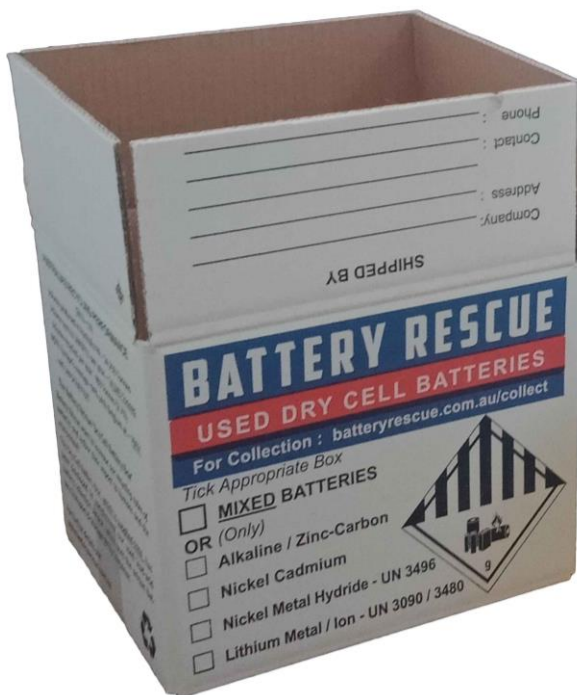

For annual quantities greater than 20kg, a recycling fee of \$2.50 will apply (the collection fee will be waived).

Pricing for Non-Battery Rescue Customers

For non-Battery Rescue customers, the following charges will apply;

- \$2.50 per kg of Dry Cell Batteries (Mixed)*
- \$60 metro Perth collection fee

*Prices charged for Dry Cell Batteries by specific type are available on request.

DRY CELL BATTERY BOX Part No: BATT250200200

- ✓ Size – 250 x 200 x 200mm
- ✓ Volume – 10 Litres
- ✓ Capacity – 20 Kgs
